# Welcome to our new catalogue

EKF Diagnostics is a global medical diagnostics business with specialisms in point-of-care testing, central laboratory tests, enzyme manufacturing and the provision of contract manufacturing services to the healthcare industry.

EKF's **Point-of-Care** heritage dates back to the development of glucose sensor technology in the 1990s. Since then our portfolio has broadened to include lactate, HbA1c and ketone testing.

Our range of HbA1c analyzers and glucose analyzers are used in GP surgeries, laboratories, and diabetes clinics. They deliver fast and reliable results that provide both practitioner and patient with the information they need to make clinical or lifestyle decisions in minutes.

EKF Diagnostics offer the largest range of hemoglobin and hematocrit analyzers on the market, giving physicians and specialists a choice of product with different methodology, measurement speed, connectivity and price options. Our aim is to make blood donation and anemia screening easier, more affordable and more accessible than ever before.

EKF Diagnostics is also a global manufacturer of **Central Laboratory** products including Stanbio Chemistry reagents, benchtop laboratory analyzers, rapid tests and centrifuges. Our chemistry reagents can be used on the majority of analyzers found in hospital laboratories around the world.

EKF **Life Sciences**, based in Indiana, USA, have a long and successful reputation for delivering diagnostic enzymes and contracted bio-products. Following a large investment in 2022 this capacity is set to increase substantially as we look to continue our relationships with leading diagnostic and pharma businesses, as well as start-up companies looking for tailored solutions.

EKF's Contract Manufacturing facilities provide end-to-end capabilities for medical and diagnostic businesses including sourcing, bulk liquid handling and dispensing, clean room facilities, kitting and logistics. These services are all available from our UK, German and US sites.

Thank you for being an EKF Diagnostics customer. And, if you're not yet, we hope that you soon will. Please read on to find out more about us...

# DiaSpect Tm

Fast hemoglobin analyzer with smartphone connectivity

Hemoglobin result in less than two seconds

Only 10 µL sample volume required

Reagent-free cuvette

Integrated rechargeable Li-Ion battery (40 days/10,000 tests continuous use)

Connects to PC via USB 2.0, optional Bluetooth™ activation

2 ½ years cuvette shelf-life (including after opening)

'Always-on' technology

CE marked

Connects to

## Specifications

<b>Methodology</b> .....	Photometric (broad spectrum)
<b>Sample type</b> .....	Capillary, venous or arterial blood
<b>Sample size</b> .....	10 µL
<b>Measuring range</b> .....	1.2 - 25.5 g/dL
<b>Imprecision (within run) CV</b> .....	<1 %
<b>Calibration</b> .....	Factory-calibrated, Auto Self check between measurements
<b>Size</b> .....	40 (h) x 90 (w) x 150 (d) mm

## POC Connect

Users can now purchase a **Bluetooth® activated DiaSpect Tm device** and get mobile data management functionality through downloading the POC Connect mobile app from Google Play (Android only).

With **POC Connect** users can sync hemoglobin results to a smartphone via Bluetooth® and add unique fields such as user ID, Patient ID, cuvette LOT numbers and more. Data can be easily transferred via file download or email to be added to a central database or laboratory information system (LIS).

## Pack includes

Analyzer with integrated rechargeable Li-ion battery, user guide, USB power supply with mains connector.

# Hemo Control

Hemoglobin &  
Hematocrit

## Two results with one test\*

Hemo Control uses the most established photometric azide methemoglobin method, with proven reliability in many clinical conditions

**Hemo Vet**  
3032-0010-0219

User-friendly features minimize training time

Touchscreen operation

Hemoglobin and hematocrit\* results within 25-60 seconds

Sample volume of 8  $\mu$ L

Microcuvette minimizes risk of air bubbles to ensure consistent results

Low maintenance, no servicing required

Up to 100 hours battery time

Stores up to 4,000 patient results plus 500 QC results (on DM enabled devices)

CE marked, FDA cleared and CLIA waived (Hemo Control)

Connects to

### Pack includes

Analyzer, power adaptor, user guide, quick guide, optic cleaner, control cuvette and wall chart.

## Specifications

<b>Methodology</b>	Azide methemoglobin
<b>Principle</b>	Photometric
<b>Sample type</b>	Capillary, arterial or venous blood
<b>Sample size</b>	8 $\mu$ L
<b>Linearity</b>	0-20 g/dL: $\pm 0.3$ g/dL >20 g/dL: $\pm 0.7$ g/dL
<b>Measuring range</b>	0-25.6 g/dL 0-15.9 mmol/L
<b>Imprecision CV</b>	<2 %
<b>Calibration</b>	Factory calibrated, Auto Self check between measurements

## Add data management and functionality to Hemo Control

Hemo Control analyzers can be upgraded with connectivity functions without the need to purchase a new device.

## The Hemo Control DM Add Pack enables:

- Operator ID
- User ID
- QC information
- Lock-out functions

# Hemo Control Manager

Lab accurate hemoglobin results with data management

Hemoglobin &  
Hematocrit

(Printer not included)

All the standard  
Hemo Control features  
**PLUS** improved data  
management functions.

Barcode identification of patient ID,  
operator ID and QC

Connectivity to PCs via cable or  
Bluetooth® technology

Memory for 4,000 patients results  
and 500 QC results

Quality control reminders

Flags results out of range or  
rejected results

Access control and QC lock-out  
function

Not available in the USA

## Pack includes

Analyzer, barcode scanner, power adaptor, user guide, quick  
guide, optic cleaner, control cuvette and wall chart.

HemoConnect software	3040-7231-0132	1 pack

\* Hematocrit result is calculated when hemoglobin result is within 12 - 18 g/dL

## Connectivity options

**Hemo Control** can be upgraded with Data  
Management functions using the Add Pack  
Hemo Control DM option.

**Hemo Control Manager** supports Data  
Management functions at delivery and features  
integrated Bluetooth connectivity.

**HemoConnect PC software** If you are not  
planning to connect to a POC Data Manager/LIS  
directly or just require a PC connection, the  
Hemo Connect software allows users to  
configure data management functions and  
download test results when the test is performed  
or later from the device memory.

Connects to

# HemoPoint® H2

Hemoglobin &  
Hematocrit

Accurate hemoglobin and hematocrit results with one simple test\*

Hemoglobin and hematocrit\* results within 30-60 seconds

User-friendly features minimize training time

n.x.t® Microcuvettes minimize risk of air bubbles to ensure consistent results

Low maintenance, no servicing required

Up to 100 hours battery time

Stores up to 4,000 patient results

FDA cleared and CLIA waived

## Pack includes

Analyzer, control cuvette, optics cleaner, power adaptor, user guide, quick guide and wall chart.

Specifications may vary for USA models.  
Please refer to local product information.

Available  
from EKF  
USA only

# Hemo Control & H2 microcuvettes

Hemoglobin &  
Hematocrit

Bubble-free technology

## Precise sample collection

- Only 8 µl of capillary, venous or arterial blood
- Pre-filled cuvette with dry reagent
- Blood drawn in by capillary action
- Minimised risk of air bubbles gives consistent results

## Individually packaged microcuvettes

- Suitable for tropical conditions
- Carton of 50 pcs Ideal for mobile use and low volume sites
- Each cuvette package contains its own desiccant
- Low sensitivity to humidity
- Operating temperature 15°C-40°C
- Store at room temperature 15-30°C
- Shelf life of 18 months

## Canister of 50 microcuvettes

- Sealed canister with desiccant
- Ideal for high volume sites
- Operating temperature 15°C - 40°C
- Store at room temperature 15-30°C
- Shelf life of 24 months
- Cuvettes stable for 3 months after opening when stored with the cap securely closed

# HemataStat II™

Fast hematocrit testing in any setting

Hemoglobin &  
Hematocrit

- 60 second spin time
- Six place rotor
- Built-in digital tube reader
- Clear, disposable tube holders
- Multilingual menu
- Whisper-quiet operation
- CLIA waived/CE marked

Affordable and reliable HbA1c testing

- Semi-automated
- Results in under four minutes
- 4 µL sample size
- User-friendly features minimize training time
- Sample volume of 8 µL
- Unaffected by most Hb variants
- Traceable to the IFCC/NGSP reference method
- Stores over 7,000 results
- CE marked

Not available in the USA

## Pack includes

Semi-automated analyzer with multi-language software, serial and USB 2.0 communication ports. Complete with power adaptor and barcode reader. 100-240V AC, 50-60 Hz, 30W.

## Quo-Test & Quo-Lab connectivity

A data management solution for HbA1c analyzers

Bi-directional POCT1-A2 communication protocol

Fast and easy recall of patient results improves traceability

Only trained users able to access and use the system

QC Lockout ensures the system is always working within QC parameters

Not available in the USA

Connectivity Interface Box

Keyboard

Barcode Scanner

### Ordering information

Description	Reference No.	Contents
Interface Box	6002-0011-0312	1 pc
Keyboard	7203-0031-0143	1 pc
Barcode scanner	3100-7121-1327	1 pc

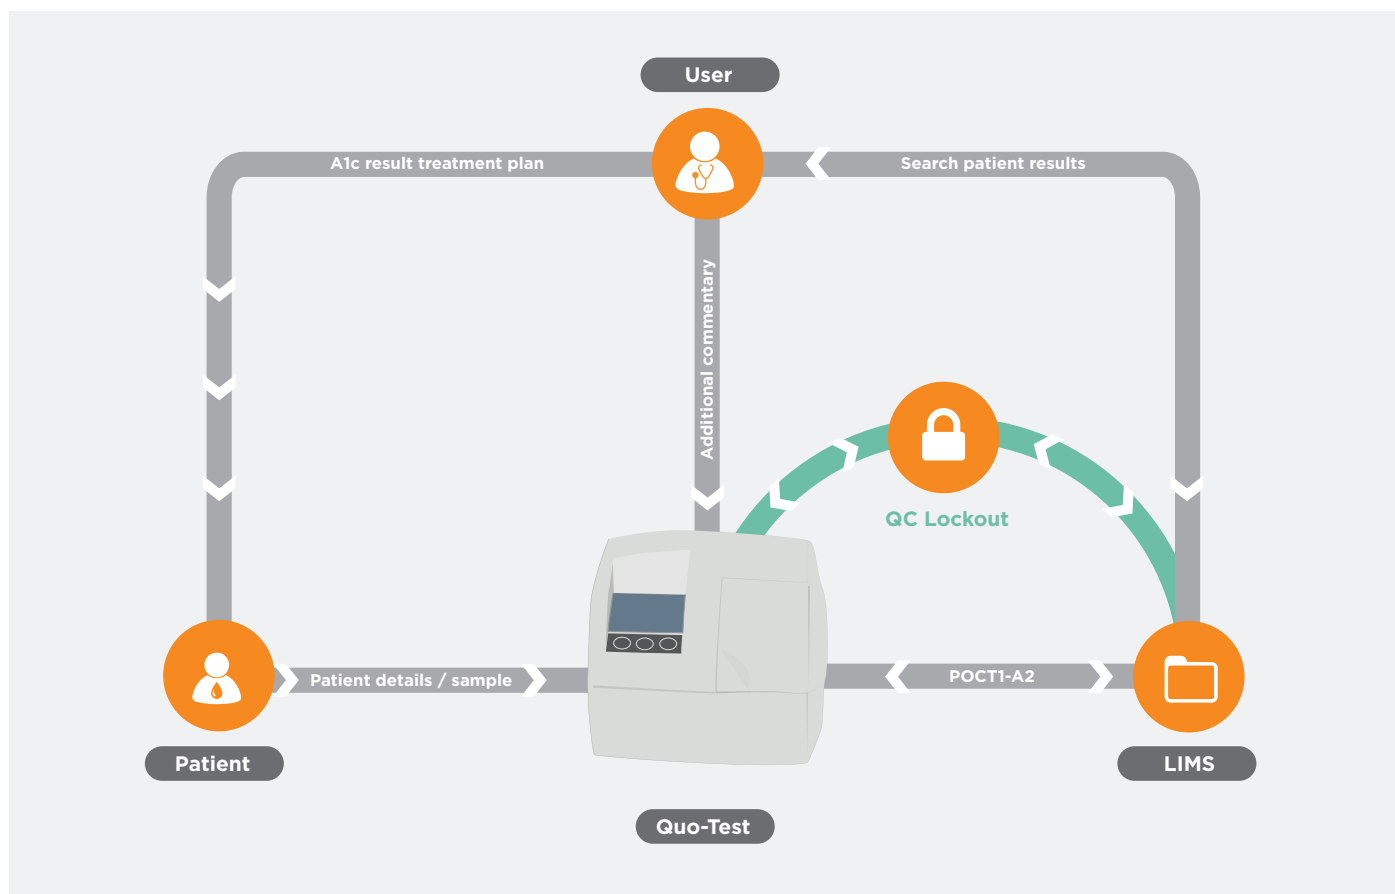

Connects to

The POCT1-A2 communication protocol allows analyzers to transmit patient data to the majority of LIS/HIS in use today

## Connectivity functions explained

### Features & benefits

	Updated feature	Advantage
Connect, store and recall results with ease	POCT1-A2 communication protocol.	Simple and industry recognized bi-directional communication protocol that enables users to feed patient results into LIS/HIS automatically.
Increased patient demographic information	Add patient ID, patient name, family name and D.O.B on all tests either by a barcode scan or via keyboard.	Fast and easy recall of patient results, improves traceability across the entire patient population.
Enhanced security	Trained user access control (user ID lockout).	Minimize chances of user error and adhere to institution protocol by restricting access to trained users only.
Improved compliance	QC lockout.	Three different user defined QC schedules to enforce a regular testing of QC materials.
Result commentary	Additional commentary can be added to any test result.	Gives the user information relating to the patient condition.

# Biosen C-Line

The #1 choice for glucose and lactate testing

**Biosen C-Line Clinic**

5214-0051-2200

Results in 20-45 seconds

Imprecision < 1.5%

Up to 120 results an hour

Multi-lingual touch screen display with step by step instructions

Stores up to 1,000 results

Hemolyzed sample stable for up to five days

Long life chip-sensor technology

CE marked

**Biosen C-Line GP+**

5213-0051-6200

# STAT-Site WB®

Whole blood  $\beta$ -ketone and glucose measurement in seconds

CLIA waived  
Results in just 5-10 seconds  
Stores up to 400 results  
1  $\mu$ L sample size capillary or venous whole blood  
Handheld  
Easy to use

## Specifications

**Methodology** ..... Electrochemical  
**Principle** ..... Enzymatic-amperometric  
**Sample type** ..... Whole blood, venous or capillary  
**Sample size** ..... 1  $\mu$ L  
**Measuring range** .....  $\beta$ -ketone 0.1-8.0 mmol/L Glucose 10-600 mg/dL (0.5 to 33.3 mmol/L)  
**Hematocrit range** .....  $\beta$ -ketone 10 to 70% Glucose: 20 to 70%  
**Calibration** ..... Not required  
**Dimensions** ..... 95.5 (l) x 57 (w) x 15 (h) mm, 58 g

## Pack includes

Analyzer with custom carry case, user manual and quick start guide for each parameter.

# Sports Performance

Lactate Scout 4 .....	22
-----------------------	----

# Lactate Scout 4

Fast, accurate and reliable lactate measurement

10 second measurement time

Hematocrit compensation

Imprecision CV +/- 3 %

Lactate measurement, date, time, mode, temperature and memory ID on a single display

Step by step instructions on display

Single and step-test measurements

Pre-calibrated sensors

Integrated Bluetooth® connectivity

Stores up to 500 results

CE marked

## Specifications

**Methodology** .....Single use microfluidic sensors

**Principle** .....Enzymatic-amperometric

**Sample type** .....Capillary whole blood

**Sample size** .....0.2 µL

**Measuring range** .....0.5 - 25.0 mmol/L

**Imprecision (within run) CV** ..... ±3% (min. SD: ±0.2 mmol/L) for Hct range 35-50%  
±4% (min. SD: ±0.3 mmol/L) Hct range 20-35%, 50-70%

**Calibration** ..... Pre-calibrated sensors

## Available Packs

### Solo

Analyzer with user manual and battery pack.

### Starter Set

Analyzer with user manual, battery pack, 6 lactate sensors, 2.5 mL test solution, spray bottle, belt case, Bluetooth® dongle, CD including Lactate Scout 4 Assistant software.

# Maternal & Women’s Health

Creamatocrit Plus™ .....	24
QuPID® hCG / True®20 hCG .....	25

# Creamatocrit

Ensure new babies receive the calories they need to thrive

Built-in automatic tube reader

Six place rotor

Three minute centrifugation

Whisper quiet operation

Eliminates calipers and conversion charts

Displays creatinocrit, calories per ounce, kcalories per 100ml, kcalories per liter and fat grams per liter

Two year warranty

CE marked

## Pack includes

Centrifuge including power supply, 10 disposable transparent tube holders, instruction manual, laminated quick reference procedure guide, one vial of Creamatocrit Plus tubes, one tray of tube sealant and control strip.

## Ordering information

Description	Reference No.	Contents
Creamatocrit Plus pack	100-145 (RUO)* 100-158 (EU)	1 pack
Creamatocrit Plus tubes	270-110 270-110VL	5 vials with 200 tubes each 1 vial with 200 tubes
HemataSeal® tube sealant	260-100	Box of 10 trays
Disposable tube holders	230-100	Pkg of 50
Rechargeable battery	280-104	1 pc
Carrying case	320-100	1 set

\*RUO model only available in the USA

## Specifications

**Use** .....Determination of creatinocrit, estimated calories and other parameters of breast milk

**Rotor** ..... 6 place fixed angle head

**RPM**..... 5,670-6,930

**Operating temp**.... 10 °C - 40 °C (50 °F - 104 °F)

**Dimensions** ..... 177 (w) x 279 (d) x 127 (h) mm / 6.9" x 10.8" x 5"

**Weight**..... 907 g / 1.9 lbs

Visibly better one step pregnancy tests

>99 % accurate / >99 % specific

Results in 3 minutes from urine or  
results in 5 minutes from serum

Positive results in as little as 10  
seconds with the appearance of  
control line

Room temperature storage

Built-in positive and negative  
procedural controls

CE marked and CLIA waived

# Connectivity at the point-of-care

**Software built to provide  
maximum flexibility**

EKF Link is a software platform designed to provide a flexible and secure method for connecting point-of-care devices to hospital and laboratory IT systems.

# EKF Link

Connect all of your analyzers on one software platform

## Connect all of your EKF analyzers - and others too

EKF Link is a middleware solution for healthcare providers to manage their Point of Care analyzers and the generated data on one centralized platform.

EKF Link is a flexible, open solution that can be interfaced to most vendor's Point of Care analyzer to permit the real-time management of data including patient test results, QC results, operator management and analyzer configuration.

## One solution for multiple situations

EKF Link has been designed by IT Solution engineers working alongside hospital POC Managers to provide users with a single, comprehensive platform.

EKF Link's simple set-up, intuitive interface and user-friendly graphics enable effective utility in GP offices, pharmacies, laboratories, hospitals and blood banks. There are no barriers to where and how EKF Link can be implemented.

EKF Link can be installed on a PC, or a server.

## EKF link is ideal for use in

Hospitals

Laboratories

Blood banks

Pharmacies

GPs

# Key features

## Instrument management

- Add features to instrument (e.g. QC lockout)
- Remote configuration

## Report management

- CSV and PDF
- Personalized reports

## Test results and QC management

- Chart view
- Table view

## Alarm management

## Operator management

## Connect to LIS and HIS

	Updated Feature	Advantage
<b>Safe and secure</b>	Integrated device connector	Connect multiple Point of Care analyzers securely and easily to LIMS/EMR
<b>Maximum flexibility</b>	Advanced architecture	Hosted on your laptop, or a server. Your data, your choice. Data accessible from most web browser using security protocol without installing any additional module.
<b>Test integrity</b>	Patient and QC tests management	Manage test in table or/and charts Check results Review exceptions Add comments
<b>Traceability</b>	Operator management	EKF Link can automatically lock out users who are not properly certified, which reduces the risk for errors and helps to meet strict regulatory and quality requirements.
<b>Visibility</b>	Instrument management	Manage your instrument remotely check their status, so you know if a device has to be replaced. Remote configuration, so you don't need to go physically on each instrument to change their settings.
<b>Archive</b>	Report management	You can export test results on pdf and csv report for further review.

# Capture, analyze and share data securely

# Capture

Access patient details  
and test results.

[illegible]

## Review

Easily navigate through all previous patient results.

[illegible]

## Control

Configure an analyzer from any location.

[illegible]

## Secure

Keep track of the certification status of the analyzer operators.

## Pack includes

Analyzer, universal power supply, user manual, touch screen computer, screen lever arm, keyboard and mouse.

## Specifications

**Methodology** - Photometric method using monochromatic and bichromatic measurement

**Photometric linearity** ..... 0 to 3.0 OD

**Wavelengths.** (8 discrete) 340, 405, 492, 505, 546, 578, 630, 700 nm

**Throughput** up to 400 tests per hour with optional ISE module or up to 240 tests per hour w/o ISE

**Reagent volume**..... 1 - 400 µL

**Dimensions.** 93 (w) x 72 (d) x 60 (h) cm / 36.6" x 28.3" x 23.6"

**Weight**..... 60 kgs / 133 lbs

## Windows® based Altair™ 240 software for easy operation

Altair 240™ is loaded with Windows® based software that makes learning and operating quick and easy using the intuitive touchscreen. The touchscreen is ideal for displaying Levey-Jennings graphics of quality control levels and work sessions and allows users to access everything they need at the touch of button, including:

- Auto re-run with auto-dilution options
- Active monitoring of reagents and main instrument liquid levels
- Water supply, wash solution and waste level tank alarms

Altair 240™ also features an expandable archive for storing and viewing patient test results and quality control results.

At less than a metre in width, the Altair™ 240 fits easily into most labs, doctors' offices, clinics and veterinary labs.

Chemistry  
Analyzers

#### Samples

- Adaptive for various size primary tubes (12mm, 13mm)
- 49 patient positions
- Integrated bar code ID reader
- STAT interruption permitted during analysis

#### Reagents

- 43 reagent positions
- Bar-coded and ready-to-use liquid reagents
- Continual 24 hour on-board cooling
- Open channel configuration

# Calibrators

Specialty calibrators and a multi-calibrator for use with automated systems

Glycohemoglobin,  
Direct (HbA1c) calibrator set

Calibrators		CE Marked	Reference No.	Contents
Cholesterol, Direct (HDL/LDL) Calibrator		•	0595-003	1 x 3 mL
Glycohemoglobin, Direct (HbA1c) Calibrator Set		•	0365-401	4 x 0.5 mL
Glycated Serum Protein (GSP) Calibrator set		•	2360-401	Cal1: 2 x 1 mL Cal2: 2 x 1 mL
Procalcitonin Calibrator set		•	2310-601	6 x 1 mL
Ser-T-Cal™ Multi-Calibrator		•	0550-605	6 x 5 mL

## Cholesterol, Direct (HDL/LDL) Calibrator

- Lyophilized human serum containing HDL and LDL
- Reconstituted calibrator stable for 5 days at 2-8 °C

## Glycohemoglobin, Direct (HbA1c) Calibrator Set

- Reconstituted calibrator stable for 30 days at 2-8 °C
- Calibrators referenced to National Glycohemoglobin Standardization Program (NGSP)
- Four level calibrator set with % HbA1c values

## Ser-T-Cal™ Multi-Calibrator

- 16 constituents including Total and Direct Bilirubin
- Reported with instrument specific values
- Reconstituted calibrator stable up to seven days at 2-8 °C; total and direct bilirubin are

Procalcitonin Bi-level control set			2320-203	Level 1: 1 x 3 mL Level 2: 1 x 3 mL

Ser-T-Fy® Levels 1 and 2 Serum Controls

## Ser-T-Fy® Assayed Serum

- Assay values for methods produced by other leading reagent manufacturers
- Over 60 different constituents including therapeutic drugs
- Reported with instrument specific values

## Niche reagents to complete your portfolio

### Procalcitonin LiquiColor® Test\*

- 10 minute on-board analysis time
- Correlates well to the established method
- Immunoturbidimetric assay
- Runs on most chemistry analyzers

Reference No.

2300-060

See page 14 for more details

 Powder Reagent

### $\beta$ -Hydroxybutyrate LiquiColor® Test

- Quantitative, objective  $\beta$ -HB results
- Earlier detection of clinically significant ketosis
- Improved ER and CDU throughput and efficiency
- Greater precision and sensitivity

Reference No.

2440-058

See page 14 for more details

# Micro 12™

High performance centrifuge for benchtops

Centrifuges

Brushless motor - maintenance free

18 sample capacity

High maximum speed (14,000 rpm/16,000 x g)

Ideal for clinical, molecular biology, cell biology, and bacteriology use

Small footprint

## Pack includes

Microcentrifuge, 18 place 1.5/2.0 mL rotor and 18 x 0.5 mL adapters, operator's manual

## Ordering information

Description	Reference No.	Contents
Microcentrifuge	100-152 (US) 100-155 (EU)	1 unit
Individual adapters for thermal cycling tubes	230-119 0.2 mL	1 pack of 6
	230-120 0.4/0.25 mL	
	230-121 0.5/0.6 mL	
StripSpin adapter for two 8 x 0.2 mL tube strips	G1260-001	1 box of 4 rolls

## Specifications

**Use** - Quick spin downs, microfiltrations, small blood and urine separations

**Rotor** ..... 18 place fixed angle head

**RPM**..... 1,000 - 14,000

**Dimensions**..... 210 (w) x 230 (d) x 193 (h) mm / 8.25" x 8.9" x 7.6"

**Weight**..... 4.5 kg / 10 lbs

# QuStick™ Strep A

Rapid  
Tests

Early diagnosis of Strep A infection for cost-effective treatment

97% sensitivity compared with culture

91% @ Rare (< 5 colonies)  
100% @ 1+ (< 10 colonies)

## Ordering information

Description	Reference No.	Contents
QuStick™ Strep A test	6000-025	25 tests
	6000-050	50 tests

## Pack includes

Individually pouched test strips, reagent A and reagent B, +/- external controls, sterile throat swabs, extraction tubes, instructions for use, pictorial quick guide showing step-by-step procedure.

# Hema-Screen®

Early detection of colorectal cancer

Results in two minutes

On-slide positive and negative monitors

Long shelf-life at room temperature storage

Proven guaiac methodology

CE marked

The cost-effective Hema-Screen® Lab Pack is designed to collect the specimen and perform the assay in the laboratory.

## Ordering information

Description	Reference No.	Contents
Hema-Screen® Lab Pack	1290-100	1 pack of 100

## Pack includes

100 test slides, developing solution, wooden applicators and a technical insert.

# Immunoassay

Rapid  
Tests

RaPET® delivers results in as little as two minutes

Results within two minutes  
(ASO, CRP, RF)

Superior macroagglutination

'No-dilution' technology and  
color-coded caps save time and  
minimize errors

Serum samples

CE marked

## Pack includes

Test slide, pipettes/mixers, and positive and negative controls  
to ensure accurate results. ASO, CRP, and RF also include a  
dilution buffer.

## Ordering information

Description	Reference No.	Contents
RaPET® ASO (Antistreptolysin-O)	1125-050 1125-100	50 tests 100 tests
RaPET® CRP (C-Reactive Protein)	1130-050 1130-100	50 tests 100 tests
RaPET® RF (Rheumatoid Factor)	1155-050 1155-100	50 tests 100 tests
RPR Quicktest (Reagin Antibodies Associated with Syphilis)	1170-100 1170-500	100 tests 500 tests
Syphilis Tri-Level Controls (VDRL/RPR)	1175-305	3 x 5 mL

## Specifications

Sample type ..... Multiple

Results ..... Qualitative and semi-quantitative

# Nitro-tab Ketone Tablets

Measure acetoacetic acid and acetone in urine,  
serum, plasma and whole blood

Urine results in 30 seconds

Serum and plasma results in 2 minutes

Whole blood result in 10 minutes

Room temperature storage for tablets

CLIA waived for urine testing

## Ordering information

Description	Reference No.	Contents
Nitro-tab Ketone Tablets	4000-100	100 ct.
Ketone Urine Controls	4020-005	1 x 5 mL (Positive) & 1 x 5 mL (Negative)
Ketone Serum Controls	4010-002	1 x 2 mL (Positive) & 1 x 2 mL (Negative)

## Life Sciences

Enzyme Production .....	47
-------------------------	----

## Manufacturing

Contract Manufacturing .....	48
------------------------------	----

# Enzyme Production

Life Sciences

Over 30 years experience in custom and bulk enzyme production for life science products

## Fermentation

Our fermentation facility is designed to produce micro-organisms, including recombinant organisms, for clinically important enzymes and proteins used in many product applications.

Our enzymes are distributed globally and sold in either bulk or custom format for use in the production of in-vitro diagnostic devices (IVDs).

## Custom Bioprocessing

Our downstream processing is entirely customer-driven, including:

- Cell freezing
- Cell homogenization
- Column fractionation
- Preparation of concentrated cell paste
- Freeze drying of final product

## Our core capabilities

- Pilot and small manufacturing
- Bulk orders
- Process development and optimization
- Process transfer and scale up
- cGMP documentation
- Validation
- Quality Assurance and Quality Control

Full suite of fermentation vessels including: 40 L / 80 L / 250 L and 1,600 L And 14,500 L - COMING SOON!

## Quality assurance - Our promise to you

EKF Life Sciences is committed to the development, manufacture, and delivery of quality products that exceed customer expectations. We are fully compliant with FDA regulations (Medical Devices).

We are also audited regularly by customers from various industries, and we work with them to meet their specific quality system requirements.

Our quality assurance responsibilities include:

- Finished product disposition
- Customer and regulatory audits
- Internal audits
- Deviation and CAPA systems
- Vendor qualification
- Change control
- Training systems
- Document control

# Contract Manufacturing

Manufacturing

Bespoke formulation, dispensing and kitting services

EKF Diagnostics offers a full range of wing to wing contract manufacturing services from our facilities in Texas and Indiana (USA), Cardiff (UK) and Magdeburg (Germany).

**Find out how we can partner with your business to deliver a bespoke service delivered to the highest standards.**

“EKF Diagnostics have been instrumental in our development as a company. Working above and beyond their remit to ensure the successful completion of our pivotal milestones, including our first RUO product. Meeting very time-sensitive deadlines at short notice, they ensured we made it to the finish line.”

**Elliot Quigley, Project Manager, ProtonDx, UK**

## EKF Advantages

- USA and European based manufacturing sites
- FDA registered facilities **(USA only)**
- ISO 13485:2016 certified facilities
- cGMP compliant
- Competitive manufacturing rates
- Over 30 years of manufacturing experience

## Sourcing to Shipping OEM services

- Development services to full commercial scale manufacturing
- Private labeling and packaging
- Sourcing of raw materials
- Single component or full kit manufacturing
- Formulation of bulk reagents
- Small and large batch sizes
  - Vials, bottles, bulk
- Testing, QC and Validation Services
- Quality Control, Linearity and Method Comparison Sets
- Global distribution capability

## Value Add Services

- Stability Studies
- Transportation Studies
- Training and Educational Materials
- Pre and Post-Sales Support
- Customer inventory holding capability
- Full customer service and shipping support

# Terms and conditions

## TERMS AND CONDITIONS OF SALE

These Terms and Conditions of Sale and Delivery shall apply to all supplies and services of EKF-diagnostic GmbH where the contractor is a businessman (Section 14 of the German Civil Code), a legal entity under public law or a special asset under public law. Any opposing or additional terms and conditions of the purchaser shall be expressly excluded; such conditions shall only become part of a contract if EKF-diagnostic GmbH has expressly declared its consent to the inclusion of such conditions under a separate agreement.

## PRICES

If not expressly provided otherwise, the agreed prices shall apply ex-works, including loading, but excluding packing, shipment and insurance costs. Any costs for packing, shipment and insurance shall be borne by the purchaser.

## SHIPMENT

The goods shall be shipped and transported at purchaser's expense and risk. The risk shall be transferred to the purchaser not later than upon dispatch of the goods, even if part-shipment has been agreed or EKF-diagnostic GmbH has agreed to provide also other services, such as shipping costs or delivery and installation. If explicitly requested by the purchaser and only if separately agreed, EKF-diagnostic GmbH shall take out an insurance of the consignment to cover theft, breakage, transport, fire and water damage as well as other insurable risks.

## WARRANTY

Claims of the purchaser for defects in the goods supplied shall become statute-barred after 12 months. This shall not affect the limitation of claims for reimbursement of expenses as provided under sections 478 paragraph 2, 479 paragraph 1 of the German Civil Code, and suspension of expiration as provided by section 479 paragraph 2 of the German Civil Code. Moreover, the provisions of the sections 2 to 4 below shall exclusively apply to contracts other than for the purchase of consumer goods as provided by sections 474 to 479 of the German Civil Code.

## DELIVERY

Any dates quoted for delivery of the Goods are approximate only, and the time of delivery is not of the essence. The Supplier shall not be liable for any delay in delivery of the Goods that is caused by a Force Majeure Event or the Customer's failure to provide the Supplier with adequate delivery instructions or any other instructions that are relevant to the supply of the Goods. If the Supplier fails to deliver the Goods, its liability shall be limited to the costs and expenses incurred by the Customer in obtaining replacement goods of similar description and quality in the cheapest market available, less the price of the Goods. The Supplier shall have no liability for any failure to deliver the Goods to the extent that such failure is caused by a Force Majeure Event, the Customer's failure to provide the Supplier with adequate delivery instructions for the Goods or any relevant instruction related to the supply of the Goods. The Supplier may deliver the Goods by instalments, which shall be invoiced and paid for separately. Each instalment shall constitute a separate contract. Any delay in delivery or defect in an instalment shall not entitle the Customer to cancel any other instalment.

## PRICES AND PAYMENT

The price for Goods and / or Services shall be the price set out in the Order or, if no price is quoted, the price set out in the Supplier's published price list as at the date of delivery and / or supply of Services. The price of the Goods is exclusive of all costs including but not limited to charges of packaging, insurance, transport of the Goods, bank charges, excise duties, etc. which shall be paid by the Customer when it pays for the Goods.

## TERMINATION

Without limiting its other rights or remedies, the Supplier may terminate the Contract:

- By giving the Customer three (3) months' written notice
- With immediate effect by giving written notice to the customer if the Customer fails to pay any amount due under this Contract on the due date for payment.
- The Customer may terminate the Contract by giving the Supplier not less than six (6) months' written notice.

**THE FOLLOWING IS GENERAL INFORMATION WHICH MAY BE SUBJECT TO CHANGE AT ANY TIME WITHOUT NOTICE.**

## SHIPPING INFORMATION

Orders shipping within the USA: Orders are shipped ExWorks (EXW) Boerne, Texas. A variety of freight carriers are used in order to provide the quickest and most economical mode of transportation. Stanbio will utilize a particular carrier only when specified by the customer. Refrigerated products are shipped via two (2) day delivery service Monday through Wednesday or, if requested by the customer, via overnight service on Thursdays. Frozen products are shipped via an overnight service Monday through Thursday. Additional charges apply to shipments containing hazardous material. Orders exported from the USA: Terms of sale are ExWorks Boerne, Texas.

## PRODUCT CHANGES

All product specifications and packaging sizes are subject to change without notice. Stanbio reserves the right to amend prices or to discontinue products and sizes without prior notification

## PAYMENT TERMS

Payment terms are In Advance or Net 30 Days with approved credit. Payment can be made via wire transfer, company check, bank draft, money order, letter of credit (irrevocable and confirmed) or by VISA, MasterCard, or American Express credit cards. Open account requires that full payment be made before or at account term. Unpaid balances will incur late charges of one and one-half percent (1 1/2 %) per month until paid. Delinquent accounts will be placed on credit hold until full payment is received. When applicable, freight, handling and insurance charges are prepaid and added to customer invoice. Send remittance to: P.O. Box 907, San Antonio, TX, USA 78294-0907

## DISTRIBUTORS

Stanbio products are sold through a carefully selected group of medical supply dealers. Contact our Sales Department for the name of the authorized Stanbio dealer in your area.

## LICENSING

This product catalog contains information on products which is targeted to a wide range of audiences and could contain product details or information otherwise not accessible or valid in your country. Stanbio does not take any responsibility for accessing such information which may not comply with any legal process, regulation, registration, or usage in the country of your origin.

## PRODUCT TOXICITY AND HAZARDOUS GOODS

Stanbio products should be handled only by qualified individuals trained in Good Laboratory Practices and familiar with the potential hazards of handling reagents. All Stanbio products are shipped with appropriate labeling. Safety Data Sheets are available upon request. All SDS describe, to the best of Stanbio's knowledge, any potential handling issues. Any absence of warning must not be interpreted as an indication of safety, nor does it preclude a potential health hazard. Due care should be exercised with all Stanbio products to prevent contact and ingestion.

## RETURNS POLICY

Stanbio guarantees all of its products to perform according to the parameters found in their respective package inserts, until the expiration date. Any product found not to perform up to these standards will be replaced without charge. Stanbio is not responsible for products that are held past the expiration date or not stored properly. A "Return Goods Authorization" (RGA number) MUST be obtained from the Stanbio Commercial Support Department before any product can be returned for non-performance. Any product received due to an error on the part of Stanbio may be returned for replacement or credit immediately after receiving authorization from Stanbio's Commercial Support Department. Please report any item/quantity discrepancies to the Stanbio Commercial Support Department within 5 business days from receipt of product. Damages due to shipping should be reported by the customer directly to the carrier if the shipment was shipped via Freight Collect or Consignee. Damages due to shipping should be reported by Stanbio directly to the carrier if any other method of shipment is used. Due to FDA compliance issues and GMP controls, any item(s) shipped as a result of customer error may not be returned for credit. Goods determined returnable by Stanbio will be subject to the cost of freight and a 20% restocking fee to partially cover the cost of the Quality Assurance procedures Stanbio must perform on all returned products.
