

UltraCrit™

High accuracy hematocrit measurement for blood donor screening

- ◆ Ultrasound technology
- ◆ Results in 30 seconds
- ◆ Easy to use

Every hematocrit counts because every donor counts. And that's why there's Ultracrit.

<p>Easy to use</p>	<ul style="list-style-type: none"> • CLIA waived • User friendly features minimize training time • Large display • Use for whole blood, apheresis or double red blood cell collections • Power supply from PC (USB), mains, internal lithium or AA standard batteries • Connect to PC via USB port • Reduced user subjectivity • Non-biohazardous, unrefrigerated single use controls available
<p>Fast and accurate</p>	<ul style="list-style-type: none"> • Precision <0.8% CV at 41 Hct • Accuracy <0.4% Hct (for readout in 10ths) • Linearity: 10.3-72% Hct • Results within 30 seconds • 2 year warranty
<p>Innovative technology</p>	<ul style="list-style-type: none"> • 40 µl sample size from capillary or venous sample • Utilizes ultrasound technology • Accurate hematocrit measurement from a compact, mobile device • Automatic QC test recognition
<p>UltraCrit Cuvettes</p>	<ul style="list-style-type: none"> • Contain no chemicals • 15-month shelf life • No tracking of open container stability • Opening the container does not affect the expiration date • Operating temperature: 10 to 40°C (50 to 104°F) • Storage temperature: 0 to 30°C (32 to 86°F) • Not affected by humidity

1 Collect 40µl blood sample

2 Place cuvette into analyzer and close door

3 Results appear within 30 seconds
